# Multi video recording app android

Multi-track video recording app android. How to record multiple videos on zoom. Multi camera video recording app android. How to record split screen video on android. How to record multiple videos at once. How to record multiple videos in one. How to play multiple videos at once on android.

No watermark, great interface and the countdown function makes it even better. Supports both front and rear camera. Allows you to use a flashlight during recording. Features There is time limit for registration. The background video recorder is the best video recording app for Android on the market that records the video in the background. So this is very useful for your YouTuber. In fact, it works like Mobizen for other Android devices, but is specially realized and designed for Samsung devices. You can record with two engines (advanced and default). But the most important thing about the information on the app is that all the features offered are completely free. Features easy to use the app. Du Recorder is the first app on our list of the best video recording apps for Android. There are other features you will like. So there is a small doubt that is a better contender to be the best app for video recording for Android. Simple to use and packaged with interesting features, this app has all your desires. Also, it contains no ads. Features A, the powerful and well built app that does not stop. Everything is free, without in-app purchase. Download the other high quality screen recorder for your smartphone. You can cut them, add music or even use magic effects. During recording, you can draw on the screen. But you will not influence the performance of the device. It is useful when it comes to creating tutorials. Privacy is ensured by this option-App Lock, password lock screen. The best thing about the app is that it's simple, and you can get all these things for free. This 5.1 MB format app that has downloaded more than a million users, you can install in Android 4.1 or in the versions Edit recording clips with various video editing tools. Download if you want to download the best video recording app for Android, this may not be a bad choice. Features No access to the root and no watermark. Features: Start or stop the With a touch. With a size of 4.2 MB, this app is supported on Android 5.0 or above versions and has more than 5 million downloads. Other features include: capturing screenshots, enabling or disabling video compression, audio recording and many others. Use various stickers to animate video clips. Furthermore, you can enable the front camera, record external sound and many others. So you will get a fantastic screen recording and is free. It's really good at registering your screen and audio. You can already guess what about this article. Capture screenshot and recording mobile screens without roots. Not to mention the fact that images of editing images are also available. There are photo editing apps, text messaging apps, video editing apps and many others. Increase the quality of recording clips with video editing options. Easy to use interface and no app purchase. But the main reason for downloading this app is that it is easy to use. Stable, powerful and unique discharge: these three words perfectly adapt to the Super Recorder app. You will have the possibility to enable or disable the camera shutter sounds and camera previews. A, from the game, screen to live the chat and live broadcast, record everything. Convert the à €
